Specialist printer for **oversized** event cards and credentials

Built on Matica's established XID print engine, the XL8300 utilizes its retransfer printing technology to offer high quality, bespoke event badge printing on **wide format plastic cards**, widely used as access credentials in the event management industry.

Concert organizers, professional sports teams or event management marketing agencies can rely on XL8300 to quickly deliver personalized credentials for their events. Oversized cards may serve as event passes or tickets, as well as name tags to identify regular attendees, VIPs or staff. Highly visible, personalized, oversized cards for **attendees, VIPs and staff** help facilitate event security and access control requirements.

With outputs of up to 128 cards per hour in monochrome mode and up to 85 full color cards per hour, the XL8300 can deliver even when event timelines are tight and deadlines are looming. Its compact desktop footprint makes enables event badges to be **printed onsite and on demand**.

XL8300 delivers...

- 300 x 300dpi color retransfer printing
- Oversized card format: 124 x 85.6mm / 4.88" x 3.37"
- Robust and durable print engine
- Consistent print quality on multiple card surfaces/materials
- High capacity consumables (1000 images)
- Up to 85 color cards per hour
- Scalable design and compact footprint
- USB and Ethernet

Ideal for...

- Corporate events
- Concerts
- Sports events

XL8300

On-site issuance of high quality oversized cards

The XL8300 offers the **largest printable area for plastic cards on the market** and its superior print quality will positively reflect the image of the brand or organization.

This event badge printer lets issuers choose between monochrome carbon black shades or a full color range. Its retransfer printing technology ensures that issuers are not bound to standard PVC cards, but can also opt for more durable card materials, such as ABS and PET.

Matica's XL8300 also offers a number of **features to help secure events**. These include a **contactless chip encoding** option for sites with specialized security requirements, as well as **UV printing** that enables the printing of an invisible logo, text, or watermarks to **protect badges against forgery**.

Printer specifications

Print technology

Dye-sublimation, retransfer

Print resolution

300 dpi

Print area (oversized card format)

124 x 85.6mm (4.88" x 3.37")
