

Single Sided ID Card Printer

Easy Input, Exceptional Output

Perfectly designed for smaller organizations, the IDP SMART-21 plastic ID card printer offers the smallest footprint on the market, a user-friendly solution for producing high-quality ID cards. Whether you need full-color or monochrome cards, this reliable plastic ID printer handles it all with efficiency and ease.

The SMART-21 is great for entry-level demands with lower budgets. Its simple hand-fed card feeder, lightweight design, and versatility make it ideal for printing Staff IDs, Access Badges, Membership Cards, and more.

Issuance

SMART IDesigner ensures accurate card issuance and data management with your SMART series of printers. This application offers simple design tools to allow the user to create a truly customized card within minutes. SMART IDesigner offers advanced user tools such as database connections, camera, and signature scanners plug-in support, as well as smart card reading and encoding.

- Design and print (Image, Photo, and Text)
- 1D & 2D Barcode printing
- Auto portrait (Auto face detection, adjustment of size & position)
- Printing of sequential numbers
- Card design templates
- Plug-in for supporting external devices (Sign pad, Camera, Scanner)
- Convenient card issuance and data management
- Magnetic stripe (MS), contact & contactless smart card encoding by using a plug-in program

Security

The SMART series printers come with highly effective and tested physical and electronic security features.

- PASSWORD verification with administrator and user authentications
- PC AUTHENTICATION locks the SMART printer to a specific PC to render it useless if stolen
- DATA ENCRYPTION over USB and SSL (secure socket layer) over Ethernet
- PHYSICAL LOCKS are standard on the SMART-70 and an optional feature on the SMART-51 Series
- Ethernet - SNMPv3

Networking

The SMART series offers “single-wire” printing and encoding.

- The SMART Ethernet module can not only print over your network, but can also be configured to encode a magnetic stripe, contact IC chips, and contactless smart cards over your network
- The SMART Ethernet module can be configured to accept “open card protocol” print commands for direct printing without a driver
